# Home Schooling tips for younger children

The key is to make it **fun!**

1 2 3 4 5

# Play schools, don't do school!

## Turn it into a game

- Pack a school bag
- Do a packed lunch
- Use teddies or toys for classmates
- Set up a classroom scene
- Get the children involved, use their ideas
- Don't put any pressure on the children or yourselves!
- Have fun and make memories!

## Make learning fun

Children don't need text books to learn...

- They learn through play
- Make scavenger hunts
  - Sing and dance
  - Yoga
- PE with Joe Wicks
- Junk modelling
  - Baking
- Use their favourite toys

# Make yourselves a routine

Children need routine and structure, it gives them a sense of normality

The key is to keep it as simple as possible

Make it visual for both yourself and the children, take photos or draw pictures for each part of the day. Make it personal and tailor your plan to your child!

I have created a routine template as an example for you to use

Just remember – don't put any pressure on yourselves and try to enjoy it!

# Our daily routine

7am - Breakfast  
time and free play

9am - Exercise
