

Use your time outside to help your children learn about colours!! Go on a scavenger hunt to find colours. Colour match items you can find when out in your garden, walking in your neighbourhood or out in woodland.

You will need:

Colour swatches—either bits of different coloured material or

Colour cards from DIY stores.

Paper bag to collect items.

How many different colours can you find?

How many different shades?

Can you name the colour?

Sort all the colours you find.

Who collected the most colours?

Which is your favourite colour?

Always remember to wash your hands when you have played outside!
