

## Nature Faces

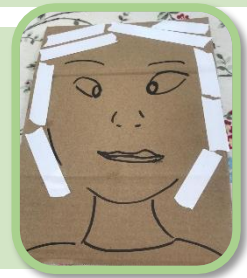

This is fun activity for children to hunt for natural items in the environment. Great for developing language skills and promoting discussions about plants, nature and habitats. Talk about what you can hear, see and smell around you.

Things you'll need:

- Cardboard (or the back of a cereal box).
- Double sided tape or glue.

1. Draw a face on your cardboard and stick double sided tape on for hair or use glue.

2. Go outside and see what you can find to stick to your face!
