

## Super Soft Playdough

You will need:

- Cornflour
- Hair conditioner
- Food colouring (optional)
- Bowl for mixing
- Zip lock bag or air tight container to store your dough

1. Pour in a cup of hair conditioner into the bowl and add a few drops of food colouring if you wish (be careful - this can stain clothes and utensils). With a spoon mix the mixture together with the hair conditioner.

2. Add 2 cups of cornflour and stir well. If the mixture is sticky add some more cornflour. It should end up as thick blob.

3. Place the mixture on a flat surface and mix the mixture well with your hands. Now enjoy squishing, shaping and playing with the dough. When the mixture has been finished with, place in a zip-lock bag or air-tight container to be used again.

This activity will help your child with their hand eye co-ordination and develop their imagination. Mould the mixture by squishing, smoothing and rolling into different shapes, your child can enjoy the texture. It smells really lovely giving your child a lovely sensory experience using their senses.
