

# BRITISH VALUES

## What are they and how can we promote them?

### Democracy

Showcase everyone being treated equally and having equal rights. Having a choice alone and in groups.

- Daily choice board- give children the option of what they want to do/play with
- Story time - Lay out a selection of books and children choose what book to read
- Turn taking - you can do this through games, helping around the house and sharing
- Emotions - help children to express their emotions and feelings

### Individual Liberty

Support children to understand and value their own self and gain confidence in making choices.

- Provide opportunities for risk taking e.g. make obstacle course
- Encourage a range of experiences that explore language of feelings and responsibility, reflect on these differences and understand everyone is free to have a different opinion
- Have discussions about what you have done today and think about others choices

### The Rule of Law

Understanding that rules matter and understanding right from wrong.

- Create rules and codes of behaviour together-discuss what is acceptable and what isn't
- Talk about police services and laws that we need to follow
- Talk about services that help us, e.g. fire and ambulance service
- Help children to understand their actions have consequences (good and bad)

### Mutual Respect and Tolerance

Treating others how you want to be treated and learning to understand and appreciate each others differences.

- Share stories from home that reflect the values and the diversity of their experiences
- Respecting others opinions and feelings - use listening skills
- Visit the wider community e.g. elderly peoples homes and religious festivals
