

Hot Air Balloons

You will need:

- Coloured Card
- Glue
- String
- Scissors
- Cardboard Tube

1 Cut out four different coloured hot air balloon shapes and fold each in half. You can decorate the balloon at this point if you like with colouring pens, sticks or other bits.

2 Put the bottom of the balloon into half a cardboard tube and stick with tape to secure.

3 If you'd like to hang your balloon, stick some string at the top of the balloon, then hang.
