

3D Christmas Tree

Things you'll need:

Pencils, crayons, felt tip, glitter, sequins, card, paint

1. Cut out 2 tree shapes and colour them in green with paint, crayons or pencils etc.

2. Decorate both sides of the cut out trees with sequins, glitter etc

3. Cut a slit down one side from the top on one tree and one slit down the middle from the bottom of the tree and attach together. You have now made your Christmas tree decoration.

Top Tip

- Talk to your child about the different colours and the texture of the sensory items. Help and support them stick the resources independently helping them develop their hand eye co-ordination skills. Your child can make these for all the family to put up in their house.
