Christmas Cards

Things you'll need:
card, paint, paintbrush,
pen, and red tissue paper
and if you have got them,
googly eyes.

1. Fold the card in half and either paint your hand and place down upside down on your card or draw around you hand and colour in brown and cut out your hand print out.

2. Scrunch up some red tissue paper and glue down for a nose and add antlers using a pen.

3. Add eyes to the reindeer using either the googly eyes or draw some on and then write your message.

Top Tip 💡

- Talk to your child about who they would like to send a Christmas card to. Maybe they would like to send it to an elderly neighbour. Have a lovely Christmas and stay safe.
