

## Make snow

### Items you will need:

- Bicarbonate of soda
- White hair conditioner
- Cup
- Bowl

1. Fill 3 cups with soda crystals and 1 cup with white hair conditioner.

2. Mix together. If it is sticky add more soda crystals.

3. Make a snowman or snowballs. You could also make a snow scene. Also see the YouTube video for more, <https://www.youtube.com/watch?v=AZbjrYcNpPs>

Top tip: This is a really good resource for hand eye co-ordination. It makes a really good communication tool, talking about the senses, touch and smell.
