

Easter Egg Card

You will need:

- Coloured Card
- Glue
- Pencils/paints/crayons
- Scissors

1) Draw an outline of an Easter egg and cut out the shape.

2) Using different materials from around your home make your egg creative.

3) Stick our egg to a piece of card and in the inside of the card write a message to someone who you would like to wish a 'Happy Easter'.

Top tip: Please support your child with the cutting of the egg. This is an opportunity to find items around the home and the garden to make a creative looking Easter egg. This is a nice idea to give to a neighbour or family member who are feeling lonely at the moment.
