

Mother's Day Picture

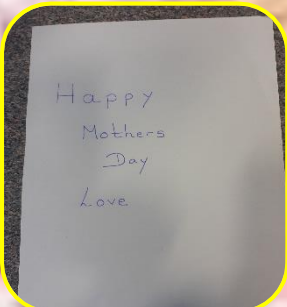

Items you will need:

- Pieces of paper or card
- Pencils and crayons or paints
- Paint brush
- Scissors
- glue

1. Draw around your hands and then colour them in using crayons/pencils or paint. Then cut them out and also cut out a vase shape.

2. On the back of the card or piece of paper write you message to whom you are sending it to.

3. Place the handprints above the vase and find your desired look and then stick down.

Top tip: This is an opportunity to support your child to cut out the vase and handprints. This is also a time that you can talk to your child about how they are feeling and who they would like to give the card to.
