

## Chick Puppets

### Items you will need:

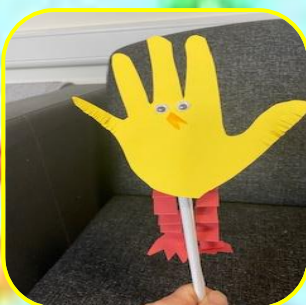

- Piece of paper
- Googly eyes or a black pen
- Scissors
- Straw or lolly stick
- Tape or glue

1. Draw around your hand and cut out the shape.

2. Using some different coloured card for the legs cut out 2 strips and then fold them in a concertina.

3. Stick the straw to the back of the hand shape and attach the legs with glue or tape. Add some eyes and a beak. Have fun with your puppet!

Top tip: This is an opportunity to talk to your child about baby animals and the start of spring. It is also a good hand eye co-ordination skill with the scissors. Please support your child with the scissors.
